# Introducing the Upgraded EBMT Registry

At EBMT, we understand the importance of staying at the forefront of medical advancements.

That's why we're thrilled to announce the launch of our new and improved EBMT Registry by August 2023.

Designed to meet the evolving needs of HCT professionals and Competent Authorities (CA), our updated registry is set to revolutionise the way data is collected and utilised in the field.

Don't miss out on the opportunity to be a part of this groundbreaking advancement in HCT data.

**Upgrade to the new EBMT Registry and unlock a world of possibilities for better health decisions and improved outcomes.**

**Co-funded by the European Union**

## What's new?

**Enhanced Reporting and Safety Oversight:**

The new platform ensures accurate reporting of HCT activities, prioritising patient and donor safety. With improved data collection, centres can effectively track quality, safety, and efficacy data, leading to better outcomes and care.

**Compliance and Data Protection:**

Privacy and data protection are top priorities.
The new EBMT Registry aligns with the General Data Protection Regulation (GDPR), safeguarding patient and user information and adhering to best practices in standardisation. Rest assured that your data is secure and confidential.

**Flexibility and adaptability:**

The new platform will allow for easy implementation of new questions or forms, enabling the EBMT Registry to stay up to date with the latest advancements in the field of HCT.
