### INTRODUCTION

The Global Educational Committee in collaboration with the EBMT NG President, other Committees and various Nurse Groups, aims to coordinate and organize outreach meetings in cooperation with other non-profit associations with the same mission in objectives.

Together they coordinate and provide a range of educational activities for nurses and allied health professionals within the field of Haematology and Haematopoietic Stem Cell Transplantation.

of the GEC:  
Key objectives

- The organization and coordination of HSCT nursing educational events and activities in LMICs.
- Working in collaboration with like-minded entities to foster and strengthen the ability of local nurse leaders to develop and sustain educational networks.
- Creating a model not solely dependent on EBMT but that becomes part of the global community.
